- No Special Equipment Needed
- Online Reporting
- HIPAA Compliant
- Personalized Messaging
- Increase Show Rates
- Decrease No-show Rates
- Increase Revenue
- Appreciative Staff
- Happier Patients/Clients
- Custom Integration

Discuss and Plan.

Talk with our friendly staff about integrating your current Electronic Medical Records (EMR), Patient Management System (PMS), or general appointment system with MAARS. Our staff has tons of experience integrating with multiple systems. We will analyze your specific workflow and write a custom integration that works for your specific situation. Our goal is to make MAARS fully automated so that your staff can fully focus on other things.

Implement.

Once the best way to integrate MAARS with your current workflow is determined, we'll efficiently implement the solution. The implementation will enable your current system to generate a file or set of files that MAARS can use to start making appointment reminder calls for you. MAARS eliminates the need for additional phone lines and hardware in your office. MAARS can even utilize current Caller ID technology so that it appears that the calls are coming directly from a phone number that you control.

Automate.

Once integration and testing are complete and you are happy with the message format, MAARS will begin to automatically and securely transfer the necessary appointment reminder information from your system to MAARS. Then, MAARS will automatically schedule the appointment reminder calls on your behalf according to your schedule. You pick the days of the week on which calls are made and the time of day that you would like to have your patients or customers contacted.

Remind and Report.

Once the calls start flowing, you will be amazed at the overall results and the amount of time that your organization is saving. Our scalable servers will be doing all of the work for you! In addition to having the ability to log-in to our website to see your account, you will also receive an email if there is a problem with your daily call list, as well as an end of the day email report summarizing your account activity and your call results.

Call us, we can help.

Thinking about using MAARS, but not sure if the system is right for you?
